EXCELLENCE & RECOGNITION

- ❖ STIZO NUCLEAR SA was founded by reorganization of the Special Work and Insulations Technology Trust, being a company specialized in construction works performance, having as main field nuclear construction works, in Cernavoda.
- ❖ Honoring with promptitude and fairness the contractual terms and requirements in compliance with the assigned deadlines and budgets strongly recommend our company as an powerful and serious partner, where the highest level of quality is mandatory.
- ❖ It was the excellence on local projects era.

- ❖ In 2008 the company was taken over by Vinci Energies and reconsiders its position on the market by winning thermal insulation and construction contracts outside the Dobrogea region, its traditional area of activity, in new areas such as Zimnicea (Interagro-Biofuel) and Pitesti (FCN – Nuclear Fuel Plant), where we are still involved with projects.
- ❖ That was the time when we stepped up to the “glocal” excellence era, the path on both global and local recognition.

WORLDWIDE LEADERSHIP

- ❖ VINCI Energies is present worldwide.
- ❖ Businesses and public authorities draw on the extensive know-how of its 60,000 employees to deploy, equip, operate and optimize their energy, transport and communications infrastructure, industrial facilities and buildings.
- VINCI Energies develops high value added solutions to support customers throughout their projects' lifecycle, from project **engineering and execution** to **maintenance, operation and facilities management**.
- Thanks to an exceptionally dense network of 1,500 business units in 40 countries (20 in Europe), VINCI Energies combines global reach with local service.

A HEARTBEAT OF TOTAL QUALITY MANAGEMENT

A HEARTBEAT OF TOTAL QUALITY MANAGEMENT

The implementation of the systems:

- ISO 9001 : 2008 – Quality Management System

A HEARTBEAT OF TOTAL QUALITY MANAGEMENT

N_{STIZO}^{UCLEAR S.A.}

TECHNOLOGY

The company has its own stock of high performance machinery and equipment that can perform any work on the established deadlines .

All works are performed by specialized and skilled personnel with a high level of qualification. The works are performed in accordance with the technical execution documentation requirements and specific rules.

Combining the highest quality of the materials used and high qualification of our staff, your plans and constructions are definitely committed to meet quality guarantee.

MAIN ACTIVITY AREAS

ACTIVITY AREAS ON DETAIL

THERMAL INSULATION:

- on piping;
- on equipment;
- cladding.

ANTICORROSION PROTECTION:

- epoxy linings, sealing and decontamination protection;
- passive fire protection;
- fireproofing gunite.

SPECIAL WORKS:

- reinforced concrete gunite;
- refractory concrete gunite;
- waterproofing.

CIVIL WORKS:

- reinforced concrete structures;
- steel structures;
- finishings.

ACTIVITY AREAS ON DETAIL

ANTICORROSION PROTECTION:

- PASSIVE FIRE PROTECTION;
- FIREPROOFING GUNITE;
- DECONTAMINATION PROTECTION -
 - *EPOXY LINERS;*
 - *SEALING WITH THIOKOL;*
 - *INJECTION WORKS WITH EPOXY RESINS.*
